

SHIVENDU NAGAR

Full Stack Developer

Khatima, Uttarakhand, India | s.nagar4444@gmail.com | 8077874642 | linkedin.com/in/shivendu-nagar-809b4426a | github.com/shiv1503

PROFESSIONAL SUMMARY

Full Stack Developer and MCA graduate with hands-on experience building end-to-end web applications using React.js, Next.js, Node.js, Java, Python, and MySQL. Skilled in developing responsive front-end interfaces, RESTful APIs, and database-driven backend systems, with additional exposure to machine learning, computer vision, and data analysis. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, Git/GitHub version control, and Agile development practices. Quick learner with proven ability to independently design, build, and deploy full-stack projects.

EDUCATION

Master of Computer Applications (MCA) — CGPA: 8.6 <i>Graphic Era Hill University</i>	2023 – 2025
Bachelor of Computer Applications (BCA) — 69.5% <i>Surajmal Agarwal Degree College</i>	2019 – 2022

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C, C++, C#

Front-End: React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)

Back-End: Node.js, REST API, Flask

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, Android Studio, Linux, Power BI, Tableau

Libraries: Pandas, NumPy, Matplotlib, OpenCV, TensorFlow

Concepts: Full Stack Web Development, OOP, Data Structures & Algorithms, Computer Networks & Security, Agile Methodology, Machine Learning

INTERNSHIP

CodSoft — Python Programming Intern (Virtual) Sep 2025 – Oct 2025

- Completed a 4-week virtual internship in Python Programming, building and submitting task-based Python projects as part of the program curriculum.
- Applied core Python programming concepts and problem-solving skills to complete assigned tasks within program deadlines.
- Received program completion certification for skills demonstrated and contributions throughout the internship.

PROJECTS

Next.js Portfolio | *Next.js, React, TypeScript*

- Built a modern, responsive personal portfolio website with Next.js and React to showcase full-stack projects, technical skills, and experience.
- Implemented reusable, component-based UI architecture with TypeScript for type safety and maintainability.

Personal Dashboard | *React, JavaScript, HTML, CSS*

- Developed a React-based dashboard for organizing and tracking professional interactions and contact information.
- Built reusable UI components and implemented state management for efficient data handling.
- Designed a responsive, user-friendly interface, improving accessibility of centralized professional records.

MotoBuddy — Vehicle Enthusiast Social Platform | *Java, MySQL, Android, Firebase*

- Designed and developed a social platform for car and bike enthusiasts to register, manage, and showcase multiple vehicles.

- Implemented user authentication, profile management, and vehicle registration with detailed specifications and photo galleries.
- Designed a scalable relational database structure supporting multiple vehicles per user and categorized content.
- Planned future enhancements including event management, marketplace integration, and cross-platform mobile support.

Safe Drive Application | *Python, OpenCV, Computer Vision*

- Developed a Python-based driver monitoring system using OpenCV and computer vision techniques.
- Implemented real-time face and eye tracking to detect driver drowsiness and reduced attention levels.
- Built a real-time alert system to enhance road safety and prevent fatigue-related accidents.

Entertainment Buddy | *Python, Machine Learning, Streamlit, Pandas, NumPy*

- Developed a movie, anime, and TV-series recommendation system using the K-Nearest Neighbors (KNN) algorithm.
- Built an interactive Streamlit web application for real-time, personalized recommendations.
- Optimized data processing pipelines using Pandas and NumPy for faster response times.

CERTIFICATIONS

- Python Programming — CodSoft
- Digital Marketing — Adobe / Coursera

CORE COMPETENCIES

Problem Solving, Communication, Teamwork & Collaboration, Time Management, Organization, Adaptability, Debugging
